

Speed stabilizer-adjustable

# SR114

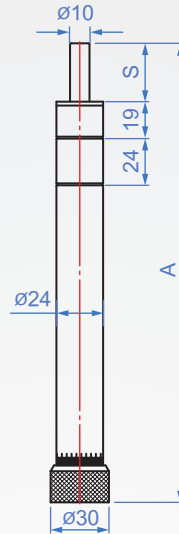

Adjustable

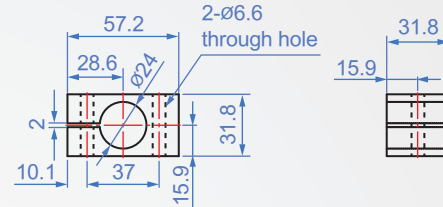

⚠ The bottom is an oil seal, please do not turn it.

Purpose: Stably control the forward speed of the cylinder for drilling, tapping, cutting, milling, etc.

Features: Provide high, medium and low speeds for designers to choose.

Ontology	Composition structure	Fixed seat	Operating temperature
Steel (Dyed black)	Shaft, spring, oil seal, piston, hydraulic oil... etc.	AL6061 (Anode)	0~60°C

### How to order

SR114 - 2430  
 TYPE No.

unit:mm					
No.	Rod diameter	Stroke S	Load weight kg	Total length A	Set weight (g)
2430	24	30	15~330	206	670
2460		60		285	815
24100		100		398	1030
